

PAUL JOHN ANTIGO

Aspiring Software Engineer & Full-Stack Developer

Zambales, Philippines | 0951 137 8115

Pauljohn.antigo@gmail.com | LinkedIn | GitHub

PROFILE

Fourth-year Computer Science student and aspiring software engineer with hands-on experience building a substantial full-stack project using React, TypeScript, Python, Flask, SQLAlchemy, and PostgreSQL. Comfortable working across interfaces, REST APIs, databases, authentication, authorization, administrative workflows, and application security fundamentals.

SELECTED PROJECT

MunLink — Independent Full-Stack Civic-Tech Project | Portfolio project

React, TypeScript, Tailwind CSS, Python, Flask, SQLAlchemy, PostgreSQL, JWT, Turborepo

- Designed and developed a full-stack platform to explore how common local-government service workflows can be represented digitally.
- Built document request and approval workflows, QR-based verification, PDF generation, email delivery, program applications, announcements, marketplace features, and administrative portals.
- Implemented authentication and authorization, role-based access control, password hashing, audit logging, and rate-limiting fundamentals.

EXPERIENCE

IT Support Assistant — Cisco Department | 20-day contract

Special Program for Employment of Students (DOLE) | Northern Zambales College, Inc. | Masinloc, Zambales

- Encoded and validated student information for accurate identification-card processing.
- Captured and prepared student photographs, organized student records, and checked information consistency before printing.
- Assisted with the end-to-end ID production workflow, from data preparation through final output.
- Performed quality checks and helped organize the release and distribution of completed student IDs.

EDUCATION

Bachelor of Science in Computer Science | 2023 - 2027

President Ramon Magsaysay State University | 4th-year student

CREDENTIALS

- Data Analytics Essentials — Cisco Networking Academy, Aug 2026
- Azure AI Fundamentals — TESDA course completion, Jul 2026
- Security, Compliance, and Identity Fundamentals — TESDA course completion, Jul 2026
- Developing Designs for User Experience — TESDA course completion, Jul 2026

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Vite

Backend & Data: Python, Flask, REST APIs, SQLAlchemy, PostgreSQL, SQL, database design

Engineering: Git, GitHub, Turborepo, JWT, authentication, authorization, RBAC, API integration
