ABOUT ME

Fourth-year Computer Science student building full-stack projects with React, TypeScript, Python, Flask, and PostgreSQL, supported by AI tools and documentation. Open to internship/OJT and entry-level roles.

EDUCATION

2023-2027

PRMSU, Iba Campus

Bachelor of Science in Computer Science

President Ramon Magsaysay State University

Expected July 2027 | Fourth-year student

EXPERIENCE

June 4-July 31, 2025

SPES / DOLE

20 days

IT Support Assistant - Cisco Department

Northern Zambales College, Inc., Masinloc, Zambales

- Validated student information in Microsoft Excel and the school's information system, preparing checked records for ID production.
- Prepared student photographs in Adobe Photoshop, producing images for official identification cards.
- Inspected completed cards and assisted with organized release, helping distribute student IDs.

PROJECT EXPERIENCE

Ongoing

Personal project

MunLink | Developer / Maintainer

Live demo | Source repository

- Built resident and administrative React applications with Flask and PostgreSQL, connecting frontend, API, and database workflows.
- Implemented document requests, payments, and QR-verified PDF release, enabling an end-to-end request-to-claim workflow.
- Implemented JWT authentication, role- and location-scoped permissions, and audit logging, providing access controls and traceability.
- Tested workflows and debugged CORS, authentication, and database issues, resolving frontend-to-API integration problems.

SKILLS

- React
- TypeScript
- Python
- Flask
- PostgreSQL
- SQLAlchemy
- Git / GitHub
- JWT / RBAC

COURSE CERTIFICATES

Data Analytics Essentials - Cisco Networking Academy | August 29, 2026

Azure AI Fundamentals - TESDA Online Program | July 13, 2026

Security, Compliance, and Identity Fundamentals - TESDA Online Program | July 14, 2026

Developing Designs for User Experience - TESDA Online Program | July 15, 2026
